State Street Dynamic Small Cap Fund

Class A (SSSDX)

Class I (SSSJX)

Class K (SSSKX)

Class N (SVSCX)

**Supplement dated September 18, 2020
to the Summary Prospectuses, Statutory Prospectuses and
Statement of Additional Information,
each dated December 30, 2019, as may be supplemented or revised from time to time**

The Summary Prospectuses, Statutory Prospectuses and Statement of Additional Information for the State Street Dynamic Small Cap Fund (the “Fund”), a series of the SSGA Funds (the “Trust”) are hereby supplemented. The following information supersedes any information to the contrary regarding the Fund contained in the Fund’s Summary Prospectuses, Statutory Prospectuses and Statement of Additional Information:

The Trust’s Board of Trustees (the “Trustees”) has approved a Plan of Liquidation and Termination of Sub-Trust (the “Plan”) with respect to the Fund, pursuant to which the Fund expects to be liquidated and terminated on or about December 18, 2020 (the “Liquidation Date”). The Plan authorizes the Fund and its investment adviser, SSGA Funds Management, Inc. (“SSGA FM”), to engage in such transactions as may be appropriate for the Fund’s liquidation and dissolution, including, without limitation, the sale of Fund assets and payment of, and provision for, Fund liabilities in anticipation of the liquidation. Accordingly, during the period between the effective date of the Plan (September 18, 2020) and the Liquidation Date (the “Liquidation Period”), the Fund will engage in business and activities solely for the purposes of winding down its business and affairs and making a distribution of its assets to shareholders, and it is possible the Fund will not pursue or achieve its investment objective. Furthermore, it is anticipated that during all, or a portion of, the Liquidation Period the Fund’s assets will be held exclusively in cash and/or cash equivalents.

In anticipation of the Fund’s liquidation, the Fund will cease the sale of its shares to new shareholders upon the close of business on September 25, 2020; however, shares of the Fund may continue to be offered through intermediaries that currently have relationships with the Fund (“Intermediary Relationships”) and to existing shareholders having accounts directly with the Fund. Effective upon the close of business on December 16, 2020, the Fund will no longer accept from Intermediary Relationships and/or existing shareholders orders to purchase additional shares. Existing shareholders of the Fund may, consistent with the requirements set forth in the Prospectuses, redeem their shares or exchange their shares into shares of the same class of any other series of the Trust at any time prior to the Liquidation Date as long as their applicable share class is available for incoming exchanges.

On or prior to the Liquidation Date, the Fund will make one or more pro rata liquidating distributions (each, a “Liquidating Distribution” and, collectively, the “Liquidating Distributions”) consisting of substantially all the assets of the Fund, less the amount reserved to pay creditors of the Fund. Liquidating Distributions will be made to shareholders of record in accordance with instructions from such shareholders, provided that if a shareholder of record has not given instructions to the Fund by the time that the liquidation proceeds are distributed, the shareholder’s liquidation proceeds may be distributed by the mailing of a check to such shareholder.

As part of the Plan, with the intention to eliminate all liability of the Fund for corporate-level U.S. federal income and excise tax imposed pursuant to the Internal Revenue Code of 1986, as amended (the “Code”), the Fund will, if necessary, declare and pay one or more dividends in such amount or amounts as the Fund determines is necessary or appropriate, taking into account all Fund distributions previously declared and/or paid during the taxable year that qualify for the dividends paid deduction under Section 561 of the Code, to distribute: (a) all of the Fund’s investment company taxable income (computed without regard to the dividends paid deduction) and

net tax-exempt income, and all of its net capital gain (as defined by the Code) for each of: (i) the taxable year of the Fund through and including the Liquidation Date, and (ii) any prior taxable year in respect of which, at the time of declaration and payment, the Fund is eligible to declare and pay a spillback dividend under Section 855(a) of the Code; and (b) any additional amounts necessary to avoid any excise tax described in Section 4982 of the Code, to be payable so as to be received on or before the Liquidation Date, to the shareholders of record of the Fund as of such date(s) as the Treasurer of the Trust determines. For purposes of the foregoing, the total and per-share amounts of such dividends will be determined by the Treasurer of the Trust and such determinations will be binding and conclusive for all purposes.

*This Supplement should be retained with your
Summary Prospectus, Statutory Prospectus and
Statement of Additional Information for future reference.*

SSGA Funds

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You may find the fund's prospectus and other information about the fund online at:

<http://ssgafunds.com/resources/materials/productLiteratureOverlay.seam>

You also may get this information at no cost by calling (800) 647-7327 or by sending an e-mail request to fund_inquiry@ssga.com. The fund's current prospectus and statement of additional information are incorporated by reference into this summary prospectus.

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund (or from your financial intermediary, such as a broker-dealer or bank). Instead, the reports will be made available on the Fund's website (www.ssgafunds.com), and you will be notified by mail each time a report is posted, and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds electronically by calling (800) 647-7327.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. If you invest directly with a Fund, you can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by calling (800) 647-7327. Your election to receive reports in paper will apply to all funds held in your account.

Investment Objective

State Street Dynamic Small Cap Fund (the "Fund") seeks to maximize the total return through investment in equity securities.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund ("Fund Shares"). You may qualify for sales charge discounts on purchases of Class A shares if you agree to invest in the future, or if you and your family currently invest, at least \$50,000 in State Street Funds that offer Class A shares. More information about these and other discounts is available from your financial professional and in the "Investing in State Street Funds Shares" section on page 41 of the Fund's Prospectus.

Shareholder Fees (fees paid directly from your investment)

	<u>Class A</u>	<u>Class I</u>	<u>Class K</u>
Maximum Sales Charge (Load) Imposed On Purchases (as a percentage of offering price)	5.25%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of the net asset value) ¹	None	None	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	<u>Class A</u>	<u>Class I</u>	<u>Class K</u>
Management Fees	0.75%	0.75%	0.75%
Distribution and Shareholder Service (12b-1) Fees	0.25%	0.00%	0.00%
Other Expenses ²	1.06%	1.06%	0.86%
Total Annual Fund Operating Expenses	2.06%	1.81%	1.61%
Less Fee Waivers and/or Expense Reimbursements ³	(0.76%)	(0.76%)	(0.76%)
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements	<u>1.30%</u>	<u>1.05%</u>	<u>0.85%</u>

¹ A contingent deferred sales charge ("CDSC") of 1.00% may be assessed on redemptions of Class A shares made within 18 months after purchase where no initial sales charge was paid at the time of purchase as part of an investment of \$1,000,000 or more.

² "Other expenses" have been restated to reflect current fees.

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

³ The Fund's investment adviser, SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM"), is contractually obligated until December 31, 2020 (i) to waive up to the full amount of the advisory fee payable by the Fund, and/or (ii) to reimburse the Fund to the extent that Total Annual Fund Operating Expenses (exclusive of non-recurring account fees, extraordinary expenses, acquired fund fees and expenses, and distribution, shareholder servicing and sub-transfer agency fees) exceed 0.85% of average daily net assets on an annual basis. This waiver and/or reimbursement may not be terminated prior to December 31, 2020 except with the approval of the Fund's Board of Trustees. SSGA FM has contractually agreed to waive 0.01% of its administration fee. This waiver may not be terminated or modified except with the approval of the Fund's Board of Trustees and shall continue until at least December 31, 2020.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated, and then sell or hold all of your Fund Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The calculation of costs for the one-year period takes into account the effect of any current contractual fee waivers and/or reimbursements; and the calculation of costs for the remaining periods takes such fee waivers and/or reimbursements into account only for the first year of each such period. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 year</u>	<u>3 years</u>	<u>5 years</u>	<u>10 years</u>
Class A	\$650	\$1,067	\$1,509	\$2,732
Class I	\$107	\$ 495	\$ 909	\$2,064
Class K	\$ 87	\$ 434	\$ 804	\$1,847

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 102% of the average value of its portfolio.

Principal Investment Strategies

The Fund will invest at least 80% of its net assets (plus borrowings, if any) in equity securities of companies in the Russell 2000® Index, the Fund's benchmark. The Fund may invest up to 20% of its net assets in equity securities not included in the Russell 2000® Index.

The Fund generally considers "small cap" companies to be companies with capitalizations that, at the time of purchase, are within the range of the companies included in the Russell 2000® Index. As of October 31, 2019, the market capitalization range of the Russell 2000® Index was between \$3.32 million and \$6.17 billion. The Fund will provide shareholders with at least sixty (60) days' notice prior to any change in its 80% investment policy.

The Adviser employs a proprietary quantitative multi-factor stock-selection model to select securities while controlling risk exposure of the Fund relative to the Fund's benchmark. This model evaluates the relative attractiveness of securities from a specified investment universe based on the correlation of certain historical economic and financial factors applicable to issuers, industries and/or sectors (such as measures of valuation, quality and investor sentiment) and based on other historical quantitative metrics to past performance. Additionally, the model typically incorporates an element to evaluate the macroeconomic environment for a portion of the model determined by prevailing market conditions. This element allows a disciplined approach to seek to be adaptive to the macroeconomic environment and respond to changing conditions. The quantitative model allows the Adviser to evaluate each eligible security and then rank eligible securities in the Fund's investment universe in the order of their attractiveness as Fund investments.

The Adviser may make updates and adjustments to the economic and financial conditions and other quantitative metrics considered by the model, and to the weightings among them.

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

From time to time, the Adviser may make a qualitative judgment not to implement fully the results of the quantitative investment process if it believes that the process did not take into account all of the information relevant to the Fund's portfolio, or that a different evaluation or weighting of the information relating to the Fund's portfolio might be more appropriate.

The Fund expects to invest primarily in common stocks. The Fund may invest in other investment companies, including exchange-traded funds, to the extent permitted by applicable law (including those advised by the Adviser). The Fund may hold a portion of its assets in cash and cash instruments. The Fund also may lend its securities and engage in active trading.

The Fund may invest in derivatives, such as futures contracts and total return swaps, in order to gain broad equity market exposures pending investments of cash, or to reduce market exposures pending the sales of securities.

Principal Risks

The Fund is subject to the following principal risks. You could lose money by investing in the Fund. Certain risks relating to instruments and strategies used in the management of the Fund are placed first. The significance of any specific risk to an investment in the Fund will vary over time, depending on the composition of the Fund's portfolio, market conditions, and other factors. You should read all of the risk information presented below carefully, because any one or more of these risks may result in losses to the Fund. **An investment in the Fund is subject to investment risks, including possible loss of principal, is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.** The Fund may not achieve its investment objective. The Fund is not intended to be a complete investment program, but rather is intended for investment as part of a diversified investment portfolio. Investors should consult their own advisers as to the role of the Fund in their overall investment programs.

Market Risk: The Fund's investments are subject to changes in general economic conditions, general market fluctuations and the risks inherent in investment in securities markets. Investment markets can be volatile and prices of investments can change substantially due to various factors including, but not limited to, economic growth or recession, changes in interest rates, changes in the actual or perceived creditworthiness of issuers, and general market liquidity. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on the Fund and its investments.

Equity Investing Risk: The market prices of equity securities owned by the Fund may go up or down, sometimes rapidly or unpredictably. The value of a security may decline for a number of reasons that may directly relate to the issuer and also may decline due to general industry or market conditions that are not specifically related to a particular company. In addition, equity markets tend to move in cycles, which may cause stock prices to fall over short or extended periods of time.

Small-Capitalization Securities Risk: The securities of small-capitalization companies may be more volatile and may involve more risk than the securities of larger companies. These companies may have limited product lines, markets or financial resources, may lack the competitive strength of larger companies, and may depend on a few key employees. In addition, these companies may have been recently organized and may have little or no track record of success. The securities of smaller companies may trade less frequently and in smaller volumes than more widely held securities. Some securities of smaller issuers may be illiquid or may be restricted as to resale, and their values may have significant volatility. The Fund may be unable to liquidate its positions in such securities at any time, or at a favorable price, in order to meet the Fund's obligations. Returns on investments in securities of small-capitalization companies could trail the returns on investments in securities of larger companies.

Counterparty Risk: The Fund will be subject to credit risk with respect to the counterparties with which the Fund enters into derivatives contracts, repurchase agreements, reverse repurchase agreements, and other transactions. If a counterparty fails to meet its contractual obligations, the Fund may be unable to terminate or realize any gain on the investment or transaction, or to recover collateral posted to the counterparty, resulting in a loss to the Fund. If the Fund holds collateral posted by its counterparty, it may be delayed or prevented from realizing on the collateral in the event of a bankruptcy or insolvency proceeding relating to the counterparty.

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

Derivatives Risk: Derivative transactions can create investment leverage and may have significant volatility. It is possible that a derivative transaction will result in a much greater loss than the principal amount invested, and the Fund may not be able to close out a derivative transaction at a favorable time or price. The counterparty to a derivatives contract may be unable or unwilling to make timely settlement payments, return the Fund's margin, or otherwise honor its obligations. A derivatives transaction may not behave in the manner anticipated by the Adviser or may not have the effect on the Fund anticipated by the Adviser.

Futures Contract Risks; Other Exchange-Traded Derivatives: The risk of loss relating to the use of futures contracts and other exchange-traded derivatives is potentially unlimited. There is no assurance that a liquid secondary market on an exchange will exist for any particular futures contract or other exchange-traded derivative or at any particular time. In the event no such market exists for a particular derivative, it might not be possible to effect closing transactions, and the Fund will be unable to terminate its exposure to the derivative. If the Fund uses futures contracts or other exchange-traded derivatives for hedging purposes, there is a risk of imperfect correlation between movements in the prices of the derivatives and movements in the securities or index underlying the derivatives or movements in the prices of the Fund's investments that are the subject of such hedge. Certain foreign futures contracts and other exchange-traded derivatives may be less liquid and more volatile than U.S. contracts. The Fund may be delayed or prevented from recovering margin or other amounts deposited with a futures commission merchant or futures clearinghouse.

Liquidity Risk: Lack of a ready market or restrictions on resale may limit the ability of the Fund to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. Illiquidity of the Fund's holdings may limit the ability of the Fund to obtain cash to meet redemptions on a timely basis. In addition, the Fund, due to limitations on investments in any illiquid securities and/or the difficulty in purchasing and selling such investments, may be unable to achieve its desired level of exposure to a certain market or sector.

Management Risk: The Fund is actively managed. The Adviser's judgments about the attractiveness, relative value, or potential appreciation of a particular sector, security, commodity or investment strategy or as to a hedging strategy may prove to be incorrect, and may cause the Fund to incur losses. There can be no assurance that the Adviser's investment techniques and decisions will produce the desired results.

Modeling Risk: The Adviser uses quantitative models in an effort to enhance returns and manage risk. Any imperfections, errors or limitations in these models could limit any benefit to the Fund from the use of the models, or could result in incorrect outputs or in investment outcomes different from or opposite to those expected or desired by the Adviser. There can be no assurance that the models will behave as expected in all market conditions. In addition, computer programming used to create quantitative models, or the data on which such models operate, might contain one or more errors.

Portfolio Turnover Risk: Frequent purchases and sales of portfolio securities may result in higher Fund expenses and may result in more significant distributions of short-term capital gains to investors, which are taxed to individuals as ordinary income.

REIT Risk: Real estate investment trusts ("REITs") are subject to the risks associated with investing in the securities of real property companies. In particular, REITs may be affected by changes in the values of the underlying properties that they own or operate. Further, REITs are dependent upon specialized management skills, and their investments may be concentrated in relatively few properties, or in a small geographic area or a single property type. REITs are also subject to heavy cash flow dependency and, as a result, are particularly reliant on the proper functioning of capital markets. A variety of economic and other factors may adversely affect a lessee's ability to meet its obligations to a REIT. In the event of a default by a lessee, the REIT may experience delays in enforcing its rights as a lessor and may incur substantial costs associated in protecting its investments. In addition, a REIT could fail to qualify for favorable regulatory treatment.

Risk of Investment in Other Pools: If the Fund invests in another pooled investment vehicle, it is exposed to the risk that the other pool will not perform as expected and is exposed indirectly to all of the risks applicable to an investment in such other pool. The investment policies of the other pool may not be the same as those of the Fund; as a result, an investment in the other pool may be subject to additional or different risks than those to which the Fund is typically subject. The Fund bears its proportionate share of the fees and expenses of any pool in which it invests. The Adviser or an affiliate may serve as investment adviser to

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

a pool in which the Fund may invest, leading to potential conflicts of interest. It is possible that other clients of the Adviser or its affiliates will purchase or sell interests in a pool sponsored or managed by the Adviser or its affiliates at prices and at times more favorable than those at which the Fund does so.

Unconstrained Sector Risk: The Fund may invest a substantial portion of its assets within one or more economic sectors or industries, which may change from time to time. Greater investment focus on one or more sectors or industries increases the potential for volatility and the risk that events negatively affecting such sectors or industries could reduce returns, potentially causing the value of the Fund’s Shares to decrease, perhaps significantly.

Valuation Risk: Some portfolio holdings, potentially a large portion of the Fund’s investment portfolio, may be valued on the basis of factors other than market quotations. This may occur more often in times of market turmoil or reduced liquidity. There are multiple methods that can be used to value a portfolio holding when market quotations are not readily available. The value established for any portfolio holding at a point in time might differ from what would be produced using a different methodology or if it had been priced using market quotations. Portfolio holdings that are valued using techniques other than market quotations, including “fair valued” securities, may be subject to greater fluctuation in their valuations from one day to the next than if market quotations were used. In addition, there is no assurance that the Fund could sell or close out a portfolio position for the value established for it at any time, and it is possible that the Fund would incur a loss because a portfolio position is sold or closed out at a discount to the valuation established by the Fund at that time. Investors who purchase or redeem Fund Shares on days when the Fund is holding fair-valued investments may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the Fund had not fair-valued the holding(s) or had used a different valuation methodology.

Performance

The bar chart and table below provide some indication of the risks of investing in the Fund by illustrating the variability of the Fund’s returns from year-to-year and by showing how the Fund’s average annual returns for the periods ended December 31, 2018 compared with those of a broad measure of market performance. The bar chart shows how the Class A shares’ returns have varied for each full calendar year shown. The effect of sales charges, applicable to Class A shares only, is not reflected in the bar chart; if these amounts were reflected, returns would be lower. For periods prior to July 7, 2014, the inception date for Class A, I and K shares, the performance information shown is that of the Class N shares of the Fund (which are offered in a separate prospectus), adjusted to reflect the higher class-related operating fees and expenses of Class A shares. Except for differences in returns resulting from differences in fees and expenses, all share classes would have substantially similar returns because all share classes invest in the same portfolio of securities. Returns would differ only to the extent that the Class A, Class I and Class K share classes do not have the same expenses as Class N shares. Class A shares are generally expected to incur higher expenses, and Class I and K shares are generally expected to incur lower expenses, than Class N shares. The Fund’s past performance does not necessarily indicate how the Fund will perform in the future. Current performance information for the Fund is available toll free by calling (800)-997-7327 or by visiting our website at www.ssgafunds.com.

Annual Total Returns (years ended 12/31)*

Highest Quarterly Return: 18.47% (Q3, 2009)

Lowest Quarterly Return: -21.18% (Q3, 2011)

* As of 9/30/2019, the Fund’s Calendar Year-To-Date return was 11.61%.

State Street Dynamic Small Cap Fund

Summary Prospectus – December 30, 2019 as revised May 28, 2020

Class A SSSDX

Class I SSSJX

Class K SSSKX

Average Annual Total Returns (for periods ended 12/31/18)

	One Year	Five Years	Ten Years	Inception Date
Class A				7/7/2014
Return Before Taxes	-15.73%	2.36%	11.05%	
Return After Taxes on Distributions	-15.97%	2.18%	10.92%	
Return After Taxes on Distributions and Sale of Fund Shares	-9.16%	1.80%	9.18%	
Class I	-10.77%	3.73%	11.80%	7/7/2014
Class K	-10.77%	3.84%	11.86%	7/7/2014
Russell 2000 Index (reflects no deduction for fees, expenses or taxes)	-11.01%	4.41%	11.97%	

The returns for certain periods would have been lower without the effect of a contractual fee waiver and/or reimbursement.

Fund returns after taxes on distributions and sale of Fund Shares may be higher than returns before taxes and/or returns after taxes on distributions for certain periods because it reflects the tax benefit an investor may receive as a result of the capital losses that would have been incurred on the sale of Fund Shares.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. After-tax returns depend on an investor's tax situation and may differ from those shown below, and after-tax returns are not relevant to investors who hold their shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts ("IRAs"). After-tax returns are shown for Class A only and after-tax returns for other share classes will vary. For periods prior to July 7, 2014, the inception date for Class A shares, the performance information shown is that of the Class N shares of the Fund, adjusted to reflect the higher class-related operating fees and expenses of Class A shares. For periods prior to July 7, 2014, the inception date for Class I and K shares, the performance information shown is that of the Class N shares of the Fund. Except for differences in returns resulting from differences in fees, expenses, and sales charges (as applicable), all share classes would have substantially similar returns because all share classes invest in the same portfolio of securities.

Investment Adviser

SSGA FM serves as the investment adviser to the Fund.

John O'Connell and Fang Li serve as portfolio managers of the Fund. They have served on the Fund since 2015 and April 2020, respectively.

Purchase and Sale of Fund Shares

The Fund's initial and subsequent investment minimums generally are as follows, although the Fund may reduce or waive the minimums in some cases.

Class A	
To establish an account	\$2,000
To add to an existing account	None
Class I	
To establish an account	None
To add to an existing account	None
Class K	
To establish an account	None
To add to an existing account	None

You may purchase or redeem Fund Shares on any day the Fund is open for business.

Written Requests and Wire Transfers. You may purchase or redeem Fund Shares by written request or wire transfer.

Written requests should be sent to:

By Mail:

SSGA Funds
P.O. Box 219737
Kansas City, MO 64121-9737

By Overnight/Registered, Express, Certified Mail:

SSGA Funds
430 W 7th Street Suite 219737
Kansas City, MO 64105-1407

For wire transfer instructions, please call (800) 647-7327 between 8 a.m. and 4 p.m. Eastern time. Redemptions by telephone are permitted only if you previously have been authorized for these transactions.

By Intermediary:

If you wish to purchase or redeem Fund Shares through a broker, bank or other financial intermediary (“Financial Intermediary”), please contact that Financial Intermediary directly. Your Financial Intermediary may have different or additional requirements for opening an account and/or for the processing of purchase and redemption orders, or may be closed at times when the Fund is open. Financial Intermediaries may contact DST Asset Manager Solutions, Inc. at (877) 332-6207 or via email at nscresearch@dstsystems.com with questions.

Tax Information

For mutual funds generally, dividends from net investment income (other than qualified dividend income) and distributions of net short-term capital gains are taxable to you as ordinary income under U.S. federal income tax laws whether paid in cash or in additional shares. Distributions from net long-term gains are taxable as long-term taxable gains regardless of the length of time you have held the shares and whether you were paid in cash or additional shares. Dividend and capital gains distributions that you receive, as well as your gains or losses from any sale or exchange of Fund Shares, may be subject to state and local income taxes. If you hold the shares through a tax-advantaged arrangement, you generally will be taxed only upon withdrawal of monies from the arrangement.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund Shares through a broker-dealer or other Financial Intermediary (such as a bank), the Fund, the Adviser or its affiliates may pay the Financial Intermediary for certain activities related to the Fund, including educational training programs, conferences, the development of technology platforms and reporting systems, or other services related to the sale or promotion of the Fund. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary’s website for more information.
