FINANCIAL HIGHLIGHTS**

Selected data for a share outstanding throughout each period

	Six Months Ended 6/30/18 (Unaudited)	Year Ended 12/31/17	For the Period 2/19/16* - 12/31/16
Net asset value, beginning of period	\$12.48	\$10.65	\$10.00
Income (loss) from investment operations:			
Net investment income (loss) (a)	(0.05)	0.32	0.21
Net realized and unrealized gain (loss)	(0.19)	1.94	0.77
Total from investment operations.	(0.24)	2.26	0.98
Distributions to shareholders from:			
Net investment income	—	(0.39)	(0.31)
Net realized gains	—	(0.04)	(0.02)
Total distributions	—	(0.43)	(0.33)
Net asset value, end of period	<u>\$12.24</u>	<u>\$12.48</u>	<u>\$10.65</u>
Total return (b)	(1.92)%	21.26%	9.85%
Ratios and Supplemental Data:			
Net assets, end of period (in 000s)	\$4,973	\$4,953	\$3,194
Ratios to average net assets:			
Total expenses	3.43%(c)	4.48%	5.37%(c)
Net expenses	0.75%(c)	0.76%	0.75%(c)
Net investment income (loss)	(0.75)%(c)	2.72%	2.26%(c)
Portfolio turnover rate (d)	28%(e)	39%	38%(e)

* Commencement of operations.

(a) Per share numbers have been calculated using average shares outstanding, which more appropriately presents the per share data for the period.

(b) Total return is calculated assuming a purchase of shares at net asset value on the first day and a sale at net asset value on the last day of each period reported. Distributions are assumed, for the purpose of this calculation, to be reinvested at net asset value per share on the respective payment dates of the Fund. Total return for periods less than one year are not annualized. Broker commission charges are not included in this calculation.

(c) Annualized.

(d) Portfolio turnover rate is from the State Street Disciplined Global Equity Portfolio.

(e) Not annualized.

See accompanying notes to financial statements and financial statements of the Master Portfolio.

**STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
NOTES TO FINANCIAL STATEMENTS**

June 30, 2018 (Unaudited)

1. Organization

State Street Institutional Investment Trust (the “Trust”), a Massachusetts business trust registered under the Investment Company Act of 1940, as amended (“1940 Act”), is an open-end management investment company.

As of June 30, 2018, the Trust consists of thirty-four (34) series (and corresponding classes, each of which have the same rights and privileges, including voting rights), each of which represents a separate series of beneficial interest in the Trust. The Declaration of Trust permits the Board of Trustees of the Trust (the “Board”) to authorize the issuance of an unlimited number of shares of beneficial interest with no par value. The financial statements herein relate only to the following series (the “Fund”):

Fund	Classes	Commencement of Operations	Diversification Classification
State Street Disciplined Global Equity Fund	Class A Class C Class I Class K	Not commenced Not commenced February 19, 2016 Not commenced	Diversified

Class A shares are available to the general public for investment through transaction-based financial intermediaries. Class A shares impose a sales charge (as a percentage of offering price) and may be subject to a 1% contingent deferred sales charge (“CDSC”) if no initial sales charge was paid at the time of purchase of an investment of \$1,000,000 or more and the shares are redeemed within 18 months of purchase. Class I shares are sold without a sales charge and only to certain eligible investors.

The Fund is part of a master-feeder structure and invests substantially all of its assets in the State Street Disciplined Global Equity Portfolio (the “Portfolio”), a separate series of SSGA Active Trust. The value of the Fund’s investment in the Portfolio reflects the Fund’s proportionate interest in net assets of the Portfolio (99.98% at June 30, 2018). The performance of the Fund is directly affected by the performance of the Portfolio. The financial statements of the Portfolio, including its Schedule of Investments, are attached to this report and should be read in conjunction with the Fund’s financial statements.

Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements:

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The Fund is an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

Security Valuation

The Fund records its investment in the Portfolio at fair value (net asset value) each business day. The valuation policy of the Portfolio is discussed in Note 2 of the Portfolio’s Notes to Financial Statements, which are attached to this report.

The Portfolio’s investments are valued at fair value each day that the New York Stock Exchange (“NYSE”) is open and, for financial reporting purposes, as of the report date should the reporting period end on a day that the NYSE is not open. Fair value is generally defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. By its nature, a fair value price is a good faith estimate of the valuation in a current sale and may not reflect an actual market price. The investments of the Portfolio are valued pursuant to the policy and procedures developed by the Oversight Committee (the “Committee”) and approved by the Board. The

**STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
NOTES TO FINANCIAL STATEMENTS (continued)**

June 30, 2018 (Unaudited)

Committee provides oversight of the valuation of investments for the Portfolio. The Board has responsibility for determining the fair value of investments. The summary of the inputs used for the Portfolio, as of June 30, 2018, in valuing the Portfolio's securities carried at fair value are discussed in Note 2 of the Portfolio's Notes to Financial Statements, which are attached to this report.

Investment Transactions and Income Recognition

Investment transactions are accounted for on the trade date for financial reporting purposes. Realized gains and losses from the sale or disposition of investments are determined using the identified cost method. Dividend income and capital gain distributions, if any, are recognized daily on the ex-dividend date, net of foreign taxes withheld at source, if any.

Expenses

Certain expenses, which are directly identifiable to a specific Fund, are applied to that Fund within the Trust. Other expenses which cannot be attributed to a specific Fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative net assets of the Fund within the Trust. Class specific expenses are borne by each class.

Distributions

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed annually, unless additional distributions are required for compliance with applicable tax regulations. The amount and character of income and capital gains to be distributed are determined in accordance with applicable tax regulations which may differ from net investment income and realized gains recognized for U.S. GAAP purposes.

3. Fees and Transactions with Affiliates

Advisory Fee

The Fund has entered into an Investment Advisory Agreement with SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM"). For its advisory services to the Fund, facilities furnished, and expenses borne by the Adviser, the Fund pays the Adviser a fee accrued daily and paid monthly, at the rate of 0.75% of the Fund's average daily net assets.

The Adviser is contractually obligated until April 30, 2019, to waive its management fee and/or to reimburse the Fund for expenses to the extent that total expenses (exclusive of non-recurring account fees, extraordinary expenses, acquired fund fees and distribution, shareholder servicing, and sub-transfer agency fees) exceed 0.75% of average daily net assets on an annual basis. This waiver and/or reimbursement may not be terminated prior to April 30, 2019 except with the approval of the Board. For the period ended June 30, 2018, fees waived and expenses reimbursed by the Adviser, pursuant to the agreement, were \$66,929.

Administrator, Custodian, and Sub-Administrator Fees

SSGA FM serves as administrator and State Street Bank and Trust Company ("State Street"), an affiliate of the Adviser, serves as custodian and sub-administrator to the Fund. For its administrative services, the Fund pays SSGA FM a fee at an annual rate of 0.05% of its average daily net assets attributable to each class of shares of the Fund. The fees are accrued daily and paid monthly. For its services as custodian, the Fund pays State Street an annual fee. SSGA FM pays State Street for its services as sub-administrator.

Distributor

State Street Global Advisors Funds Distributors, LLC ("SSGA FD" or the "Distributor"), an affiliate of the Adviser, serves as the distributor of the Fund.

The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act, under which the Fund may compensate the Distributor (or others) for services in connection with the distribution of the Fund's Class A shares and for services provided to shareholders in that class (the "Plan"). The Plan calls for payments at an annual rate (based on average daily net

**STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
NOTES TO FINANCIAL STATEMENTS (continued)**

June 30, 2018 (Unaudited)

assets) of 0.25% of the Fund's net assets attributable to its Class A shares. As of June 30, 2018, the Fund's Class A shares have not commenced operations. In addition to payments under the Plan, the Fund may reimburse SSGA FD or its affiliates for payments it makes to financial intermediaries that provide certain administrative, recordkeeping, and account maintenance services. The amount of the reimbursement and the manner in which it is calculated are reviewed by the Trustees periodically.

The Fund may also pay a sub-transfer agent fee at an annual rate of up to 0.20% of the Fund's average daily net assets attributable to Class A and Class I for recordkeeping, shareholder servicing, or administrative services provided by financial intermediaries.

Other Transactions with Affiliates

From time to time, the Fund may have a concentration of one or more accounts constituting a significant percentage of shares outstanding. Investment activities by holders of such accounts could have material impacts on the Fund. As of June 30, 2018, based on management's evaluation of the shareholder account base, the Fund had accounts representing controlling ownership of more than 10% of the Fund's total outstanding shares. The number of such accounts, based on accounts that represent more than 10% of the aggregate shares, and the aggregate percentage of net assets represented by such holdings were as follows:

<u>Fund</u>	<u>Number of 10% Affiliated Account Holders</u>	<u>Percentage of Affiliated Ownership</u>
State Street Disciplined Global Equity Fund	1	73.84%

4. Trustees' Fees

The fees and expenses of the Trust's trustees, who are not "interested persons" of the Trust, as defined in the 1940 Act ("Independent Trustees"), are paid directly by the Fund. The Independent Trustees are reimbursed for travel and other out-of-pocket expenses in connection with meeting attendance and industry seminars.

5. Income Tax Information

The Fund has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. The Fund will not be subject to federal income taxes to the extent it distributes its taxable income, including any net realized capital gains, for each fiscal year. Therefore, no provision for federal income tax is required.

The Fund files federal and various state and local tax returns as required. No income tax returns are currently under examination. Generally, the federal returns are subject to examination by the Internal Revenue Service for a period of three years from date of filing, while the state returns may remain open for an additional year depending upon jurisdiction. As of December 31, 2017, SSGA FM has analyzed the Fund's tax positions taken on tax returns for all open years and does not believe there are any uncertain tax positions that would require recognition of a tax liability.

Distributions to shareholders are recorded on ex-dividend date. Income dividends and gain distributions are determined in accordance with income tax rules and regulations, which may differ from generally accepted accounting principles.

Certain capital accounts in the financial statements have been adjusted for permanent book-tax differences. These adjustments have no impact on net asset values or results of operations. Temporary book-tax differences will reverse in the future. These book-tax differences are primarily due to distribution re-designations and distributions from underlying funds.

As of June 30, 2018, gross unrealized appreciation and gross unrealized depreciation of investments and other financial instruments based on cost for federal income tax purposes were as follows:

	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
State Street Disciplined Global Equity Fund	\$4,326,968	\$676,675	\$—	\$676,675

STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
NOTES TO FINANCIAL STATEMENTS (continued)
June 30, 2018 (Unaudited)

6. Risks

Market and Credit Risk

In the normal course of business, the Fund trades financial instruments and enters into transactions where risk of potential loss exists due to changes in the general economic conditions and fluctuations of the market (market risk). Additionally, the Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Fund has unsettled or open transactions defaults.

7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date on which the financial statements were available to be issued and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
OTHER INFORMATION
June 30, 2018 (Unaudited)

Expense Example

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads), if applicable, on purchase payments, reinvested dividends, or other distributions and (2) ongoing costs, including advisory fees and to the extent applicable, distribution (12b-1) and/or service fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from January 1, 2018 to June 30, 2018.

The table below illustrates your Fund’s cost in two ways:

Based on actual fund return —This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from each Fund’s actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Fund under the heading “Expenses Paid During Period”.

Based on hypothetical 5% return —This section is intended to help you compare your Fund’s costs with those of other mutual funds. It assumes that the Fund had a yearly return of 5% before expenses, but that the expense ratio is unchanged. In this case, because the return used is not the Fund’s actual return, the results do not apply to your investment. The example is useful in making comparisons because the U.S. Securities and Exchange Commission (the “SEC”) requires all mutual funds to calculate expenses based on a 5% return. You can assess your Fund’s costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales load charges (loads). Therefore, the hypothetical 5% return section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Annualized Expense Ratio	Actual		Hypothetical (assuming a 5% return before expenses)	
		Ending Account Value	Expenses Paid During Period(a)	Ending Account Value	Expenses Paid During Period(a)
State Street Disciplined Global Equity Fund					
Class I(b)	0.75%	\$980.80	\$3.68	\$1,021.10	\$3.76

- (b) Because the Fund invest all of its assets in its respective Master Portfolio, the expense example reflects the net expenses of both the Fund and the Master Portfolio in which it invest.
- (a) Expenses are equal to the Fund’s annualized net expense ratio multiplied by the average account value of the period, multiplied by 181, then divided by 365.

**STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
OTHER INFORMATION (continued)
June 30, 2018 (Unaudited)**

Proxy Voting Policies and Procedures and Records

A description of the Trust's proxy voting policies and procedures that are used by the Fund's investment adviser to vote proxies relating to the Fund's portfolio of securities are available (i) without charge, upon request by calling 1-800-997-7327 (toll free) or (ii) on the SEC's website, at www.sec.gov.

Information regarding how the investment adviser voted for the prior 12-month period ended June 30 is available by August 31 of each year by calling the same number and on the SEC's website, at www.sec.gov, and on the Fund's website at www.ssgafunds.com.

Quarterly Portfolio Schedule

The Fund files a complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The information on the Form N-Q is available upon request, without charge, by calling 1-800-997-7327 (toll free) and on the Fund's website at www.ssgafunds.com.

TRUSTEE CONSIDERATIONS IN APPROVING CONTINUATION OF INVESTMENT ADVISORY AGREEMENT¹

Overview of the Contract Review Process

Under the Investment Company Act of 1940, as amended (the "1940 Act"), an investment advisory agreement between a mutual fund and its investment adviser may continue in effect from year to year only if its continuance is approved at least annually by the fund's board of trustees or its shareholders, and by a vote of a majority of those trustees who are not "interested persons" of the fund (commonly referred to as, the "Independent Trustees") cast in person at a meeting called for the purpose of considering such approval.

Consistent with these requirements, the Board of Trustees (the "Board") of the State Street Institutional Investment Trust (the "Trust"), met in person on April 12, 2018 and May 17, 2018, including in executive sessions attended by the Independent Trustees, to consider a proposal to approve, with respect to the State Street Disciplined Global Equity Fund (the "Fund"), the continuation of the investment advisory agreement (the "Advisory Agreement") with SSGA Funds Management, Inc. ("SSGA FM" or the "Adviser"). Prior to voting on the proposal, the Independent Trustees, as well as the Trustees who are "interested persons" of the Adviser, reviewed information furnished by the Adviser and others reasonably necessary to permit the Board to evaluate the proposal fully. The Independent Trustees were separately represented by co-counsel who are independent of the Adviser in connection with their consideration of approval of the Advisory Agreement. Following the April 12, 2018 meeting, the Independent Trustees submitted questions and requests for additional information to management, and considered management's responses thereto prior to and at the May 17, 2018 meeting. The Independent Trustees considered, among other things, the following:

Information about Performance, Expenses and Fees

- A report prepared by an independent third-party provider of investment company data, which includes for the Fund:

¹ Over the course of many years overseeing the Fund and other investment companies, the Independent Trustees have identified numerous relevant issues, factors and concerns ("issues, factors and concerns") that they consider each year in connection with the proposed continuation of the advisory agreements, the administration agreement, the distribution plans, the distribution agreement and various related-party service agreements (the "annual review process"). The statement of issues, factors and concerns and the related conclusions of the Independent Trustees may not change substantially from year to year. However, the information requested by, and provided to, the Independent Trustees with respect to the issues, factors and concerns and on which their conclusions are based is updated annually and, in some cases, may differ substantially from the previous year. The Independent Trustees schedule annually a separate in-person meeting that is dedicated to the annual review process (the "special meeting"). At the special meeting and throughout the annual review process, the Independent Trustees take a fresh look at each of the issues, factors and concerns in light of the latest available information and each year present one or more sets of comments and questions to management with respect to specific issues, factors and concerns. Management responds to such comments and questions to the satisfaction of the Independent Trustees before the annual review process is completed and prior to the Independent Trustees voting on proposals to approve continuation of the agreements and plans.

- Copies of the Advisory Agreement and agreements with other service providers of the Fund;
- Draft responses to a letter from Joseph P. Barri, LLC, co-counsel along with the law firm of Sullivan & Worcester LLP (together, "Independent Counsel") to the Independent Trustees, reviewed prior to such date by Independent Counsel, requesting specific information from each of:
 - SSGA FM, in its capacity as the Fund's Adviser and Administrator, with respect to its operations relating to the Fund and its approximate profit margins before taxes from such operations for the calendar year ended December 31, 2017; and the relevant operations of other affiliated service providers to the Fund, together with their approximate profit margins from such relevant operations for the calendar year ended December 31, 2017;
 - State Street Bank and Trust Company ("State Street"), the sub-administrator, custodian and securities lending agent for the Fund, with respect to its operations relating to the Fund; and
 - State Street Global Advisors Funds Distributors, LLC, the principal underwriter and distributor of the shares of the Fund (the "Distributor"), with respect to its operations relating to the Fund, together with the Fund's related distribution plans and arrangements under Rule 12b-1 of the 1940 Act;
 - Information from SSGA FM, State Street and the Distributor with respect to the Trust providing any material changes to the previous information supplied in response to the letter from Joseph P. Barri, LLC prior to the executive session of the Board on May 17, 2018;
 - Materials provided by Broadridge, circulated to the Independent Trustees and to Independent Counsel, with respect to the Fund; and
 - A summary of the foregoing materials prepared by Independent Counsel.

In addition to the information identified above, the Board considered information provided from time to time by the Adviser, and other service providers of the Fund throughout the year at meetings of the Board and its committees. At such meetings, the Trustees received, among other things, presentations by the portfolio managers and other investment professionals of the Adviser relating to the performance of the Fund and the investment strategies used in pursuing the Fund's investment objective.

The Independent Trustees were assisted throughout the contract review process by their Independent Counsel. The Independent Trustees relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement, and the weight to be given to each such factor. The conclusions reached with respect to the Advisory Agreement were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each Trustee may have placed varying emphasis on particular factors in reaching conclusions with respect to the Fund.

Results of the Process

Based on a consideration of the foregoing and such other information as deemed relevant, including the factors and conclusions described below, on May 17, 2018 the Board, including a majority of the Independent Trustees, voted to approve the continuation of the Advisory Agreement effective June 1, 2018, for an additional year with respect to the Fund.

Nature, Extent and Quality of Services

In considering whether to approve the Advisory Agreement, the Board evaluated the nature, extent and quality of services provided to the Fund by the Adviser.

**STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
OTHER INFORMATION (continued)**

June 30, 2018 (Unaudited)

The Board considered the Adviser's management capabilities and investment process with respect to the types of investments held by the Fund, including the education, experience and number of investment professionals and other personnel who provide portfolio management, investment research, and similar services to the Fund. The Board evaluated, where relevant, the abilities and experience of such investment personnel in analyzing particular markets, industries and specific issuers of securities in these markets and industries. The Board also considered the substantial expertise of the Adviser in developing and applying proprietary quantitative models for managing various funds that invest primarily in equity securities. The Board considered the extensive experience and resources committed by the Adviser to risk management, including with respect to investment risk, liquidity risk, operational risk, counterparty risk and model risk. The Trustees also considered the significant risks assumed by the Adviser in connection with the services provided to the Fund, including operational, enterprise, regulatory, litigation, and compliance risks. The Board also took into account the compensation paid to recruit and retain investment personnel, and the time and attention devoted to the Fund by senior management.

The Board reviewed the compliance programs of SSGA FM and various affiliated service providers. Among other things, the Board considered compliance and reporting matters relating to personal trading by investment personnel, selective disclosure of portfolio holdings, late trading, frequent trading, portfolio valuation, business continuity, the allocation of investment opportunities and the voting of proxies. The Board also considered the role of the Adviser in monitoring the Fund's securities lending activities.

On the basis of the foregoing and other relevant information, the Board concluded that the Adviser can be expected to continue to provide high quality investment management and related services for the Fund.

Fund Performance

The Board compared the Fund's investment performance to the performance of an appropriate benchmark and universe of comparable mutual funds for the one-year period ended December 31, 2017. For purposes of these comparisons the Independent Trustees relied extensively on the Performance Group, Performance Universe and Lipper Index and the analyses of the related data provided by Broadridge.

State Street Disciplined Global Equity Fund. The Board considered that the Fund underperformed the medians of its Performance Group and Performance Universe and its Lipper Index for the 1-year period. The Board took into account management's discussion of the Fund's performance and noted the Fund's limited performance history.

On the basis of the foregoing and other relevant information, the Board concluded that the performance of the Fund is satisfactory while noting the Fund's limited performance history.

Management Fees and Expenses

The Board reviewed the contractual investment advisory fee rates payable by the Fund and actual fees paid by the Fund, net of waivers. As part of its review, the Board considered the Fund's management fee and total expense ratio, including the portion attributable to administrative services provided by SSGA FM (both before and after giving effect to any expense caps), as compared to its Expense Group and Expense Universe, as constructed by Broadridge, and the related Broadridge analysis for the Fund. The Board also considered the comparability of the fees charged and the services provided to the Fund by the Adviser to the fees charged and services provided to other clients of the Adviser, including institutional accounts. In addition, the Board considered the willingness of the Adviser to provide undertakings from time to time to waive fees or pay expenses of the Fund to limit the total expenses borne by shareholders of the Fund.

State Street Disciplined Global Equity Fund. The Board considered that the Fund's actual management fee was below the medians of its Expense Group and Expense Universe. The Board also considered that the Fund's total expenses were below the medians of its Expense Group and Expense Universe.

On the basis of the foregoing and other relevant information, and in light of the nature, extent and quality of the services provided by the Adviser, the Board concluded that the fees and the expense ratio of the Fund compare favorably to the fees and expenses of the Expense Group and Expense Universe and are reasonable in relation to the services provided.

Profitability

STATE STREET INSTITUTIONAL INVESTMENT TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY FUND
OTHER INFORMATION (continued)
June 30, 2018 (Unaudited)

The Board reviewed the level of profits realized by the Adviser and its affiliates in providing investment advisory and other services to the Fund and to all funds within the fund complex. The Board considered other direct and indirect benefits received by SSGA FM and Affiliated Service Providers in connection with their relationships with the Fund, together with the profitability of each of the Affiliated Service Providers with respect to their services to the Fund and/or fund complex. The Board also considered the various risks borne by SSGA FM and State Street in connection with their various roles in servicing the Trust, including enterprise, litigation, business, operational and entrepreneurial risk. The Board noted that the Adviser does not currently have “soft dollar” arrangements in effect for trading the Fund’s investments.

The Board concluded that the profitability of the Adviser with respect to the Fund, and the profitability range of each of the Affiliated Service Providers with respect to its services to the Fund, were reasonable in relation to the services provided.

Economies of Scale

In reviewing management fees and profitability, the Board also considered the extent to which the Adviser and its affiliates, on the one hand, and the Fund and the fund complex, on the other hand, can expect to realize benefits from economies of scale as the assets of the Fund and fund complex increase. The Board acknowledged the difficulty in accurately measuring the benefits resulting from the economies of scale with respect to the management of the Fund or the fund complex taken as a whole. The Board concluded that, in light of the current size of the Fund and the fund complex, the level of profitability of the Adviser and its affiliates with respect to the Fund and the fund complex over various time periods, and the comparative management fee and expense ratio of the Fund during these periods, it does not appear that the Adviser or its affiliates has realized benefits from economies of scale in managing the assets of the Fund to such an extent that previously agreed advisory fees should be reduced or that breakpoints in such fees should be implemented for the Fund at this time.

Conclusions

In reaching its decision to approve the Advisory Agreement, the Board did not identify any single factor as being controlling, but based its recommendation on each of the factors it considered. Each Trustee may have contributed different weight to the various factors. Based upon the materials reviewed, the representations made and the considerations described above, and as part of its deliberations, the Board, including the Independent Trustees, concluded that the Adviser possesses the capability and resources to perform the duties required of it under the Advisory Agreement.

Further, based upon its review of each Advisory Agreement, the materials provided, and the considerations described above, the Board, including the Independent Trustees, concluded that (1) the terms of the Advisory Agreement are reasonable, fair, and in the best interests of the Fund and its shareholders, and (2) the rates payable under the Advisory Agreement are fair and reasonable in light of the usual and customary charges made for services of the same nature and quality.

NOTES TO PERFORMANCE SUMMARY (UNAUDITED)

The following performance chart of the Portfolio's total return at net asset value, the total return based on market price and its benchmark index is provided for comparative purposes only and represents the periods noted. The Portfolio's per share net asset value ("NAV") is the value of one share of the Portfolio and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Portfolio and the market return is based on the market price per share of the Portfolio. The market price used to calculate the market return is determined by using the midpoint between the highest bid and the lowest offer on the exchange on which the shares of the Portfolio are listed for trading, as of the time that the Portfolio's NAV is calculated. Since shares of the Portfolio did not trade in the secondary market until one day after the Portfolio's inception, for the period from inception to the first day of secondary market trading in shares of the Portfolio (2/18/16, 2/19/16, respectively), the NAV of the Portfolio is used as a proxy for the secondary market trading price to calculate market returns. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Portfolio at NAV. Market returns do not include brokerage commissions that may be payable on secondary market transactions. If brokerage commissions were included market returns would be lower.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities and therefore does not reflect deductions for fees or expenses. In comparison, the Portfolio's performance is negatively impacted by these deductions.

The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE (UNAUDITED)

The State Street Disciplined Global Equity Portfolio (the "Portfolio") seeks to provide competitive long-term returns while maintaining low long-term volatility relative to the broad global equity market. The Portfolio's benchmark is the MSCI World Index (the "Index").

For the 12-month period ended June 30, 2018 (the "Reporting Period"), the total return for the Portfolio was 6.48%, and the Index was 11.09%. The Portfolio and Index returns reflect the reinvestment of dividends and other income. The Portfolio's performance reflects the expenses of managing the Portfolio, including brokerage and advisory expenses. The Index is unmanaged and Index returns do not reflect fees and expenses of any kind, which would have a negative impact on returns.

An underweight to lower beta, less volatile sectors and securities, the underperformance in value based metrics, and outperformance in sentiment signals were the primary drivers of Portfolio performance during the Reporting Period relative to the Index.

The sector impact on the Reporting Period relative performance versus the benchmark was negative. An underweight position of the best performing Technology sector and an overweight position of the poor performing Utilities sector detracted the most from active performance. Stock selection performance was also negative for the Reporting Period, with poor stock selection performance in Consumer Discretionary and Information Technology, partially offset by positive selection performance in Consumer Staples and Utilities.

On an individual security level, the top positive contributors to the Portfolio's performance on an absolute basis during the Reporting Period were Texas Instruments Incorporated, Swedish Match AB, and Motorola Solutions Inc.. The top negative contributors to the Portfolio's performance on an absolute basis during the Reporting Period were Vestas Wind Systems A/S, Kajima Corporation, and Danske Bank A/S.

The views expressed above reflect those of the Portfolio's portfolio manager only through the Reporting Period, and do not necessarily represent the views of the Adviser as a whole. Any such views are subject to change at any time based upon market or other conditions and the Adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any fund.

STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO PERFORMANCE SUMMARY (UNAUDITED)

Performance as of June 30, 2018

	Cumulative Total Return			Average Annual Total Return		
	Net Asset Value	Market Value	MSCI World Index	Net Asset Value	Market Value	MSCI World Index
ONE YEAR	6.48%	N/A	11.09%	6.48%	N/A	11.09%
SINCE INCEPTION(1)	32.69%	N/A	42.06%	12.69%	N/A	6.26%

(1) For the period February 18, 2016 to June 30, 2018.

Comparison of Change in Value of a \$10,000 Investment
(Based on Net Asset Value)

Line graph is based on cumulative total return.

The total expense ratio for State Street Disciplined Global Equity Portfolio as stated in the Fees and Expenses table of the most recent prospectus is 0.25%.

Performance quoted represents past performance, which is no guarantee of future results. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Current performance may be higher or lower than that quoted. Visit www.spdrs.com for most recent month-end performance. The returns do not reflect the deduction of taxes that a shareholder would pay on Portfolio distributions or on the redemption or sale of Portfolio shares. See "Notes to Performance Summary" on page 1 for more information.

* Commencement of operations.

(a) Per share numbers have been calculated using average shares outstanding, which more appropriately presents the per share data for the year.

(b) Total return is calculated assuming a purchase of shares at net asset value on the first day and a sale at net asset value on the last day of each period reported.

Distributions are assumed, for the purpose of this calculation, to be reinvested at net asset value per share on the respective payment dates. Total return for periods of less than one year is not annualized. Results represent past performance and are not indicative of future results.

(c) Not annualized.

(d) Annualized.

(e) Amount is less than 0.005%.

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
NOTES TO FINANCIAL STATEMENTS**

June 30, 2018

1. Organization

SSGA Active Trust (the “Trust”), a Massachusetts business trust registered under the Investment Company Act of 1940, as amended (“1940 Act”), is an open-end management investment company.

As of June 30, 2018, the Trust consists of twelve (12) series, each of which represents a separate series of beneficial interest in the Trust. The Declaration of Trust permits the Board of Trustees of the Trust (the “Board”) to authorize the issuance of an unlimited number of shares of beneficial interest with no par value. The financial statements herein relate only to the following Portfolio (the “Portfolio”)

Portfolio	Commencement of Operations	Diversification Classification
State Street Disciplined Global Equity Portfolio	February 19, 2016	Diversified

The Portfolio serves as a master fund in a master-feeder structure.

Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements:

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The Portfolio is an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

Security Valuation

The Portfolio’s investments are valued at fair value each day that the New York Stock Exchange (“NYSE”) is open and, for financial reporting purposes, as of the report date should the reporting period end on a day that the NYSE is not open. Fair value is generally defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. By its nature, a fair value price is a good faith estimate of the valuation in a current sale and may not reflect an actual market price. The investments of the Portfolio are valued pursuant to the policy and procedures developed by the Oversight Committee (the “Committee”) and approved by the Board. The Committee provides oversight of the valuation of investments for the Portfolio. The Board has responsibility for determining the fair value of investments.

Valuation techniques used to value the Portfolio’s investments by major category are as follows:

- Equity investments traded on a recognized securities exchange for which market quotations are readily available are valued at the last sale price or official closing price, as applicable, on the primary market or exchange on which they trade. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last published sale price or at fair value.
- Investments in registered investment companies (including money market funds) or other unitized pooled investment vehicles that are not traded on an exchange are valued at that day’s published net asset value (“NAV”) per share or unit.

In the event prices or quotations are not readily available or that the application of these valuation methods results in a price for an investment that is deemed to be not representative of the fair value of such investment, fair value will be determined in good faith by the Committee, in accordance with the valuation policy and procedures approved by the Board.

Various inputs are used in determining the value of the Portfolio’s investments.

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
NOTES TO FINANCIAL STATEMENTS (continued)**

June 30, 2018

The Portfolio values its assets and liabilities at fair value using a fair value hierarchy consisting of three broad levels that prioritize the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements) when market prices are not readily available or reliable. The categorization of a value determined for an investment within the hierarchy is based upon the pricing transparency of the investment and is not necessarily an indication of the risk associated with investing in it.

The three levels of the fair value hierarchy are as follows:

- Level 1 – Unadjusted quoted prices in active markets for an identical asset or liability;
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not considered to be active, inputs other than quoted prices that are observable for the asset or liability (such as exchange rates, financing terms, interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs; and
- Level 3 – Unobservable inputs for the asset or liability, including the Committee's assumptions used in determining the fair value of investments.

The value of the Portfolio's investments according to the fair value hierarchy as of June 30, 2018 is disclosed in the Portfolio's Schedule of Investments.

Changes in valuation techniques may result in transfers in or out of an assigned level within the fair value hierarchy. Transfers between different levels of the fair value hierarchy are recognized at the end of the reporting period.

The Portfolio had no transfers between levels for the period ended June 30, 2018.

Investment Transactions and Income Recognition

Investment transactions are accounted for on trade date for financial reporting purposes. Realized gains and losses from the sale or disposition of investments and foreign exchange transactions, if any, are determined using the identified cost method.

Dividend income and capital gain distributions, if any, are recognized daily on the ex-dividend date, net of any foreign taxes withheld at source, if any.

The Portfolio invests in Real Estate Investment Trusts ("REITs"). REITs determine the tax character of their distributions annually and may characterize a portion of their distributions as a return of capital or capital gain. The Portfolio's policy is to record all REIT distributions initially as dividend income and re-designate the prior calendar years to return of capital or capital gains distributions at year end based on information provided by the REIT.

Expenses

Certain expenses, which are directly identifiable to a specific Portfolio, are applied to that Portfolio within the Trust. Other expenses which cannot be attributed to a specific Portfolio are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative net assets of the Portfolio within the Trust.

Foreign Currency Translation

The accounting records of the Portfolio are maintained in U.S. dollars. Foreign currencies as well as investment securities and other assets and liabilities denominated in a foreign currency are translated to U.S. dollars using exchange rates at period end. Purchases and sales of securities, income receipts and expense payments denominated in foreign currencies are translated into U.S. dollars at the prevailing exchange rate on the respective dates of the transactions.

The effects of exchange rate fluctuations on investments are included with the net realized and unrealized gain (loss) on investment securities. Other foreign currency transactions resulting in realized and unrealized gain (loss) are disclosed separately.

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
NOTES TO FINANCIAL STATEMENTS (continued)**

June 30, 2018

Foreign Taxes

The Portfolio may be subject to foreign taxes (a portion of which may be reclaimable) on income, stock dividends, realized and unrealized capital gains on investments or certain foreign currency transactions. Foreign taxes are recorded in accordance with SSGA Funds Management, Inc.’s (the “Adviser” or “SSGA FM”) understanding of the applicable foreign tax regulations and rates that exist in the foreign jurisdictions in which the Portfolio invests. These foreign taxes, if any, are paid by the Portfolio and are reflected in the Statement of Operations, if applicable. Foreign taxes payable or deferred as of June 30, 2018, if any, are disclosed in the Portfolio’s Statement of Assets and Liabilities.

Distributions

Distributions from net investment income, if any, are declared and paid annually. Net realized capital gains, if any, are distributed annually, unless additional distributions are required for compliance with applicable tax regulations. The amount and character of income and capital gains to be distributed are determined in accordance with applicable tax regulations which may differ from net investment income and realized gains recognized for U.S. GAAP purposes.

3. Fees and Transactions with Affiliates

Advisory Fee

The Portfolio has entered into an Investment Advisory Agreement with SSGA FM. For its advisory services, the Portfolio pays the Adviser a fee accrued daily and paid monthly, at a rate of 0.25% of the Portfolio’s average daily net assets.

The Adviser has contractually agreed to waive its management fee and/or reimburse expenses in such an amount equal to the “Total annual Fund operating expenses” until the later of April 30, 2019 or such time as the shares of the Portfolio cease to be the only investment security held by the State Street Disciplined Global Equity Fund, a separate series of State Street Institutional Investment Trust. The waiver may be terminated only by the SSGA Active Trust’s Board of Trustees. For the period ended June 30, 2018, fees waived and expenses reimbursed by the Adviser, pursuant to the agreement, were \$14,799.

Administrator, Custodian, Sub-Administrator and Transfer Agent Fees

SSGA FM serves as administrator and State Street Bank and Trust Company (“State Street”), an affiliate of the Adviser, serves as custodian, sub-administrator and transfer agent. State Street receives fees for its services as custodian, sub-administrator and transfer agent from the Adviser.

Other Transactions with Affiliates

The Portfolio may invest in affiliated entities, including securities issued by State Street Corporation., affiliated funds, or entities deemed to be affiliates as a result of the Portfolio owning more than five percent of the entity’s voting securities or outstanding shares. Amounts relating to these transactions during the period ended June 30, 2018, are disclosed in the Schedule of Investments.

4. Trustees’ Fees

The fees and expenses of the Trust’s trustees, who are not “interested persons” of the Trust, as defined in the 1940 Act (“Independent Trustees”), are paid directly by the Portfolio. The Independent Trustees are reimbursed for travel and other out-of-pocket expenses in connection with meeting attendance and industry seminars.

5. Investment Transactions

Purchases and sales of investments (excluding short term investments) for the period ended June 30, 2018, were as follows:

	<u>Purchases</u>	<u>Sales</u>
State Street Disciplined Global Equity Portfolio	\$2,473,055	\$2,286,081

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
NOTES TO FINANCIAL STATEMENTS (continued)**

June 30, 2018

6. Income Tax Information

The Portfolio has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. The Portfolio will not be subject to federal income taxes to the extent it distributes its taxable income, including any net realized capital gains, for each fiscal year. Therefore, no provision for federal income tax is required.

The Portfolio files federal and various state and local tax returns as required. No income tax returns are currently under examination. Generally, the federal returns are subject to examination by the Internal Revenue Service for a period of three years from date of filing, while the state returns may remain open for an additional year depending upon jurisdiction. SSGA FM has analyzed the Portfolio's tax positions taken on tax returns for all open years and does not believe there are any uncertain tax positions that would require recognition of a tax liability.

Under tax reform legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"), a direct REIT shareholder is permitted to claim a 20% deduction for "qualified REIT dividends" (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income). The Tax Act does not contain a provision permitting a regulated investment company, such as the Portfolio, to pass through the special character of "qualified REIT dividends" to its shareholders. Unless future tax guidance addresses this issue, direct investors in REITs will benefit from the deduction, while investors in the Portfolio that invest in such REITs will not.

Distributions to shareholders are recorded on ex-dividend date. Income dividends and gain distributions are determined in accordance with income tax rules and regulations, which may differ from generally accepted accounting principles. Certain capital accounts in the financial statements have been adjusted for permanent book-tax differences. These adjustments have no impact on net asset values or results of operations. Temporary book-tax differences will reverse in the future. These book-tax differences are primarily due to differing treatments for foreign currency transactions, wash sales, non-REIT return of capital, and passive foreign investment companies.

The tax character of distributions paid during the year ended June 30, 2018, was as follows:

	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
State Street Disciplined Global Equity Portfolio	\$186,089	\$25,674	\$211,763

The tax character of distributions paid during the year ended June 30, 2017, was as follows:

	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Total</u>
State Street Disciplined Global Equity Portfolio	\$115,072	\$—	\$115,072

At June 30, 2018, the components of distributable earnings on a tax basis were as follows:

	<u>Undistributed Ordinary Income</u>	<u>Capital Loss Carryforwards</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Net Unrealized Gains (Losses)</u>	<u>Qualified Late-Year Losses*</u>	<u>Total</u>
State Street Disciplined Global Equity Portfolio	121,582	—	186,027	448,030	—	755,639

* The Portfolio has elected to defer certain qualified late-year losses and recognize such losses in the next taxable year.

As of June 30, 2018, gross unrealized appreciation and gross unrealized depreciation of investments and other financial instruments based on cost for federal income tax purposes were as follows:

	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
State Street Disciplined Global Equity Portfolio	\$4,522,378	\$618,743	\$170,454	\$448,289

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
NOTES TO FINANCIAL STATEMENTS (continued)
June 30, 2018**

7. Line of Credit

The Portfolio and other affiliated funds (each a “Participant” and, collectively, the “Participants”) participate in a \$500 million revolving credit facility provided by a syndication of banks under which the Participants may borrow to fund shareholder redemptions. This agreement expires in October 2018 unless extended or renewed.

The Participants are charged an annual commitment fee which is calculated based on the unused portion of the shared credit line. Commitment fees are allocated among each of the Participants based on relative net assets. Commitment fees are ordinary fund operating expenses. A Participant incurs and pays the interest expense related to its borrowing. Interest is calculated at a rate per annum equal to the sum of 1% plus the greater of the New York Fed Bank Rate and 1-month LIBOR rate.

Prior to October 12, 2017, the Portfolio and other affiliated Funds participated in a \$360 million revolving credit facility.

The Portfolio had no outstanding loans as of June 30, 2018.

8. Risks

Concentration Risk

As a result of the Portfolio’s ability to invest a large percentage of its assets in obligations of issuers within the same country, state, region, currency or economic sector, an adverse economic, business or political development may affect the value of the Portfolio’s investments more than if the Portfolio was more broadly diversified.

Foreign and Emerging Markets Risk

Investing in foreign markets involves risks and considerations not typically associated with investing in the U.S. Foreign securities may be subject to risk of loss because of government regulation, economic, political and social instability in the countries in which the Portfolio invests. Foreign markets may be less liquid than investments in the U.S. and may be subject to the risks of currency fluctuations. To the extent that the Portfolio invests in securities of issuers located in emerging markets, these risks may be even more pronounced.

Market and Credit Risk

In the normal course of business, the Portfolio trades financial instruments and enters into transactions where risk of potential loss exists due to changes in the general economic conditions and fluctuations of the market (market risk). Additionally, the Portfolio may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Portfolio has unsettled or open transactions defaults.

9. Subsequent Events

Management has evaluated the impact of all subsequent events on the Portfolio through the date on which the financial statements were available to be issued and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Trustees of SSGA Active Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of State Street Disciplined Global Equity Portfolio (the “Portfolio”) (one of the portfolios constituting SSGA Active Trust (the “Trust”)), including the schedule of investments, as of June 30, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the two years in the period then ended and the period from February 19, 2016 (commencement of operations) through June 30, 2016, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio (one of the portfolios constituting SSGA Active Trust) at June 30, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the two years in the period then ended and the period from February 19, 2016 (commencement of operations) through June 30, 2016, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2018, by correspondence with the custodian, brokers and others or by other appropriate auditing procedures where replies from brokers and others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more State Street Global Advisors investment companies since 2000.

Expense Example

As a shareholder of the Portfolio, you incur two types of costs: (1) transaction costs, including sales charges (loads), if applicable, on purchase payments, reinvested dividends, or other distributions and (2) ongoing costs, including advisory fees and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from January 1, 2018 to June 30, 2018.

The table below illustrates your Portfolio’s cost in two ways:

Based on actual fund return — This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from each Portfolio’s actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Portfolio. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Portfolio under the heading “Expenses Paid During Period”.

Based on hypothetical 5% return — This section is intended to help you compare your Portfolio’s costs with those of other mutual funds. It assumes that the Portfolio had a yearly return of 5% before expenses, but that the expense ratio is unchanged. In this case, because the return used is not the Portfolio’s actual return, the results do not apply to your investment. The example is useful in making comparisons because the U.S. Securities and Exchange Commission (the “SEC”) requires all mutual funds to calculate expenses based on a 5% return. You can assess your Portfolio’s costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales load charges (loads). Therefore, the hypothetical 5% return section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Annualized Expense Ratio	Actual		Hypothetical (assuming a 5% return before expenses)	
		Ending Account Value	Expenses Paid During Period(a)	Ending Account Value	Expenses Paid During Period(a)
State Street Disciplined Global Equity Portfolio	0.00%	\$984.80	\$0.00	\$1,024.80	\$0.00

(a) Expenses are equal to the Portfolio’s annualized net expense ratio multiplied by the average account value of the period, multiplied by 181, then divided by 365.

Tax Information

For federal income tax purposes, the following information is furnished with respect to the distributions of the Trust for its fiscal year ended June 30, 2018.

Dividends Received Deduction

The Portfolio reports the maximum amount allowable of its net taxable income as eligible for the corporate dividends received deduction.

Qualified Dividend Income

A portion of dividends distributed by the Portfolio during the fiscal year ended June 30, 2018 are considered qualified dividend income and are eligible for reduced tax rates. These lower rates range from 5% to 20% depending on the individual's tax bracket. The Portfolio reports the maximum amount allowable of its net taxable income as qualified dividend income as provided in the Jobs and Growth Tax Relief Reconciliation Act of 2003.

Capital Gain Dividend

The Portfolio hereby designates as a capital gain dividend the amount reflected below, or if subsequently determined to be different, the net capital gain of such fiscal period.

Long term capital gains dividends were paid from the Portfolio during the year ended June 30, 2018 in the amount of \$25,674.

Proxy Voting Policies and Procedures and Records

A description of the Trust's proxy voting policies and procedures that are used by the Portfolio's investment adviser to vote proxies relating to the Portfolio's portfolio of securities are available (i) without charge, upon request by calling 1-800-997-7327 (toll free) or (ii) on the SEC website, at www.sec.gov.

Information regarding how the investment adviser voted for the prior 12-month period ended June 30 is available by August 31 of each year by calling the same number and on the SEC's website, at www.sec.gov, and on the Portfolio's website at www.ssgafunds.com.

Quarterly Portfolio Schedule

The Portfolio files a complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Portfolio's Forms N-Q are available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The information on the Form N-Q is available upon request, without charge, by calling 1-800-997-7327 (toll free) and on the Portfolio's website at www.ssgafunds.com.

Approval of Advisory Agreement

At in-person meetings held prior to June 30, 2018, the Board of Trustees of the Trust (the "Board") evaluated proposals to continue the Investment Advisory Agreement (the "Agreement") between the Trust and SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM") with respect to the State Street Disciplined Global Equity Portfolio, an operational series of SSGA Active Trust (the "Fund"). The Trustees who are not "interested persons" of the Trust within the meaning of the Investment Company Act of 1940, as amended (the "Independent Trustees"), also met separately to consider the Agreement. The Independent Trustees were advised by their independent legal counsel throughout the process.

To evaluate the Agreement, the Board requested, and SSGA FM, the Trust's investment adviser and administrator, and State Street Bank and Trust Company, the Trust's sub-administrator, transfer agent and custodian ("State Street") provided, such materials as the Board, with the advice of counsel, deemed reasonably necessary. In deciding whether to approve the Agreement, the Board considered various factors, including the (i) nature, extent and quality of services provided by the Adviser with respect to the Fund under the Agreement, (ii) investment performance of the Fund, (iii) profits realized by the Adviser and its affiliates from its relationship with the Trust, (iv) fees charged to comparable funds, (v) other benefits to the Adviser, and (vi) extent to which economies of scale would be shared as the Fund grows.

Nature, Extent and Quality of Services

The Board considered the nature, extent and quality of services provided by the Adviser. In doing so, the Trustees relied on their prior experience in overseeing the management of the Trust and materials provided prior to and at the meeting. The Board reviewed the Agreement and the Adviser's responsibilities for managing investment operations of the Fund in accordance with the Fund's investment objectives and policies, and applicable legal and regulatory requirements. The Board considered the background and experience of the Adviser's senior management, including those individuals responsible for portfolio management and regulatory compliance of the Fund. The Board also considered the portfolio management resources, structures and practices of the Adviser, including those associated with monitoring and securing the Fund's compliance with its investment objectives and policies and with applicable laws and regulations. The Board also considered information about the Adviser's best execution procedures and overall investment management business, noting that the Adviser serves a wide range of clients across a broad spectrum of asset classes. The Board looked at the Adviser's general knowledge of the investment management business and that of its affiliates which make up State Street Global Advisors, through which the Adviser shares all of its senior personnel. The Board specifically considered the Adviser's experience in active management and managing master-feeder structures.

Investment Performance

The Board then reviewed the Fund's performance. The Board compared the Fund's investment performance to the performance of an appropriate benchmark (gross of expenses) and a group of comparable funds (net of expenses). The Board considered that the Fund outperformed the median of its Performance Group for the 1-year period. The Board also considered

**SSGA ACTIVE TRUST
STATE STREET DISCIPLINED GLOBAL EQUITY PORTFOLIO
OTHER INFORMATION (continued)
June 30, 2018 (Unaudited)**

that although the Fund underperformed its benchmark for the 1-year period, its performance was not significantly below the benchmark index. The Trustees also considered management's explanation of those factors that contributed to the Fund's underperformance and steps being taken in response to such factors

Profits Realized by Adviser

The Board considered the profitability of the advisory arrangement with the Fund to the Adviser, including data on the Fund's historical profitability to the Adviser. The Board noted that the Adviser had contractually agreed to waive all of its fees related to its management of the Fund and, therefore, did not realize any profits from its advisory arrangement with the Fund. The Board further noted that an affiliated fund that is a series of a separate trust and also advised by the Adviser invests substantially all of its assets in the Fund and that the Adviser receives management fees from that fund.

Fees Charged to Comparable Funds

The Board evaluated the Fund's unitary fee through review of comparative information with respect to fees paid by similar funds – i.e., global large-cap mutual funds. The Board reviewed the universe of similar mutual funds for the Fund based upon data independently obtained from Broadridge Financial Solutions, Inc. (formerly Lipper Analytical Services) and related comparative information for similar mutual funds. The Board also reviewed the fee structure of the Fund in connection with the master-feeder structure.

Other Benefits

The Board also considered whether the Adviser or its affiliates benefited in other ways from its relationship with the Trust, noting that the Adviser does not maintain soft-dollar arrangements in connection with the Trust's brokerage transactions.

Economies of Scale

The Board reviewed information regarding economies of scale or other efficiencies that may result as the Fund's assets grow in size. The Board noted that the Agreement did not provide for breakpoints in the Fund's advisory fee rate as assets of the Fund increase. However, the Board further noted the Adviser's assertion that future economies of scale (among several factors) had been taken into consideration for the Fund by fixing a relatively low advisory fee, effectively sharing the benefits of lower fees with the Fund from inception. The Board also noted that the Adviser is currently waiving the entire advisory fee, so the Adviser was not receiving any economies of scale. The Adviser also asserted that one of the benefits of the unitary fee was to provide an unvarying expense structure, which could be lost or diluted with the addition of breakpoints. The Board noted that it intends to continue to monitor fees as the Fund grows in size and assess whether fee breakpoints may be warranted.

Conclusion

After weighing the foregoing factors, none of which was dispositive in itself and may have been weighed differently by each Trustee, the Board, including the Independent Trustees voting separately, approved the Agreement for the Fund. The Board's conclusions with respect to the factors were as follows: (a) the nature and extent of the services provided by the Adviser with respect to the Fund were appropriate; (b) the performance of the Fund had been satisfactory; (c) the Adviser's unitary fee for the Fund, considered in relation to services provided and in relation to fees charged to comparable funds, was fair and reasonable; (d) profitability of the Trust's relationship with the Adviser was not excessive; (e) any additional potential benefits to the Adviser or its affiliates were not of a magnitude to materially affect the Board's conclusions; and (f) because no fees were paid to the Adviser, there were currently no economies of scale to share.
