

**Fund Objective**

The State Street Emerging Markets Equity Index Fund seeks to provide investment results that, before fees and expenses, correspond generally to the total return of an index that tracks the performance of emerging market equity securities.

**Process**

In seeking to track the performance of the Index, the Fund employs a sampling strategy, which means that the Fund is not required to purchase all of the securities represented in the Index. Instead, the Fund may purchase a subset of the securities in the Index in an effort to create a portfolio of securities with generally the same risk and return characteristics as those of the Index. Under normal circumstances, the Fund generally invests substantially all, but at least 80%, of its net assets (plus borrowings, if any) in securities included in the Index or in other securities of emerging market companies providing exposure comparable, in the Adviser's view, to securities comprising the Index.

**Key Features**

- Low cost diversified exposure to emerging markets\*

**Important Risk Information:**

Investments in **mid-sized companies** may involve greater risks than those in larger, better known companies, but may be less volatile than investments in smaller companies.

**Geographic focused** investments may be subject to significant volatility given the concentration across a single country or region.

**Equity securities** may fluctuate in value in response to the activities of individual companies and general market and economic conditions.

**Passively managed funds** hold a range of securities that, in the aggregate, approximates the full Index in terms of key risk factors and other characteristics. This may cause the fund to experience tracking errors relative to performance of the index.

**Distributor:** State Street Global Advisors Funds Distributors, LLC, member FINRA, SIPC, an indirect wholly owned subsidiary of State Street Corporation.
